

Blockchain programming - Laboratory 01

Ometita Radu - Adrian

February 2021

1 The Remix IDE

The first laboratory will be dedicated to learning how to use the Remix IDE by going through the basic tutorial, teaching us everything that we need to know to get started.

You can find the ide at this address: <https://remix.ethereum.org/>.

2 Learning solidity

We will be using the <https://cryptozombies.io/> to learn how to write solidity code. For the next laboratory you should write an essay about the first course, 'Making the zombies factory'.

3 Publishing your essay

You will receive a link, on the Teams channel with a google forms, where you can upload your essay. You will have two weeks to do that, after the two weeks, no submissions will be accepted for this assignment.
